LOTOcontrol

DIGITAL ENERGY ISOLATION & ENERGISATION CONTROL
FOR DATA CENTRES & CRITICAL OPERATIONS

Control every isolation. Protect every critical operation.

Digital LOTO **protects lives and assets** from hazardous energy, **cuts costly delays**, and creates a **proven operating standard you can reuse** across projects and facilities.

ONE MISSED ISOLATION CAN COST YOU

People
Fatality or serious injury from electrocution, arc flash or unexpected start-up.

Assets
Fire and catastrophic damage to switchgear, UPS and critical equipment.

Business
Site shutdown, missed handover dates, penalties and lasting damage to reputation.

SAFETY

Protect people and assets

- Every isolation **planned**, **approved and verified** before work starts.
- **Live diagram** showing the recorded status of every isolation point.
- Field execution confirmed on **mobile**, with optional **smart padlocks**.

Safer teams and critical infrastructure

EFFICIENCY

Energise on schedule

- Energisation **tracked against project deadlines** and priorities.
- **Approve from anywhere** on mobile: no one waiting for signatures.
- Your own **SOP and drawings**, reused across phases and sites.

Fewer delays, smoother operations

COMPLIANCE

Prove it, every time

- **Clear ownership**: know who requested, approved, verified and holds each isolation.
- **Full audit trail**, with ready reports for clients and regulators.
- Your **approved procedure enforced**: no skipped steps.

Audit-ready records, greater confidence

WHO IT'S FOR

Main contractors
Deliver energisation on programme and show your client full control.

Data centre operators
Protect uptime with controlled, fully traceable maintenance isolations.

Regional & global teams
One standard across every project and facility.

DEPLOY YOUR WAY

Dedicated cloud | On-premise | Mobile app | ePTW system integration on request
